Safety Data Sheet

1. IDENTIFICATION

Product Identifier: Ammonium Bifluoride Solution, 10-20% w/v Aqueous

Product Code(s): A1025, Custom

Synonyms: Ammonium Hydrogen Difluoride Solution; Etching Powder Solution

Recommended Use: For manufacturing, industrial, and laboratory use only. Use as a laboratory reagent.

Uses Advised Against: Not for food, drug, or household use.

Supplier: Rocky Mountain Reagents, Inc.
4621 Technology Drive, Golden, CO 80403
Phone: (303) 762-0800 Fax: (303) 762-1240

Emergency Phone Number: (800) 255-3924 (CHEM-TEL)

2. HAZARDS IDENTIFICATION

Hazard Classifications:
- Acute Toxicity – Oral: Category 4
- Skin Corrosion/Irritation: Category 1B
- Eye Damage/Irritation: Category 1

Signal Word: DANGER

Hazard Statements:
- Harmful if swallowed.
- Causes severe skin burns and serious eye damage.

Pictograms:

Precautionary Statements:

Prevention:
- Wash thoroughly after handling.
- Do not eat, drink, or smoke when using this product.
- Do not breathe mists.
- Wear protective gloves, protective clothing, eye protection, and face protection.

Response:
- Immediately call a poison center or doctor.
If swallowed: Rinse mouth. Do NOT induce vomiting.
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Storage: Store locked up.

Disposal: Dispose of contents and container in accordance with local, regional, national, and international regulations.

Hazards Not Otherwise Classified: Not applicable.

Toxicity Statement: Not applicable.

3. COMPOSITION AND INFORMATION ON INGREDIENTS

Trade Secret Statement: Not applicable.

4. FIRST AID MEASURES

First Aid Procedures:

Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

Ingestion: Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, keep head low so that vomit does not enter lungs. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Skin Contact: Wash skin with soap and plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Get medical attention.

Eye Contact: Check for and remove contact lenses, if present and easy to do. Immediately flush eyes with gentle but large stream of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Immediate medical attention is required. Get medical attention.

General Advice: Poison information centers in each state can provide additional assistance for scheduled poisons. Ensure that those providing first aid and medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Symptoms and Effects: Irritation, burns, conjunctivitis, chest pain, pneumonia, cyanosis, convulsions, muscle spasm, shock, ulceration, headache, abdominal pain, nausea, vomiting, diarrhea, hematuria, blindness. Harmful if swallowed, inhaled, or exposed to the skin or eyes. May cause burns. May affect the respiratory tract and mucous membranes. Prolonged or repeated exposure may cause damage to the lungs, mucous membranes, and bones.

Immediate Medical Care/ Special Treatment: Get medical attention if exposed or concerned. Treat symptomatically. Symptoms may be delayed.
5. **FIREFIGHTING MEASURES**

**Suitable Extinguishing Media:** Water spray, dry powder, alcohol resistant foam, carbon dioxide.

**Unsuitable Extinguishing Media:** Do not use a solid (straight) water stream, as it may scatter and spread fire.

**Hazardous Combustion Products:** Nitrogen oxides, hydrogen fluoride.

**Specific Hazards:** Excessive thermal conditions may cause decomposition and yield corrosive and/or toxic fumes.

**Special Protective Equipment/Precautions for Firefighters:** As in any fire, wear MSHA/NIOSH-approved (or equivalent), self-contained, positive-pressure or pressure-demand breathing apparatus and full protective gear.

6. **ACCIDENTAL RELEASE MEASURES**

**Personal Precautions and Protective Equipment:** Isolate hazard area and keep unnecessary and unprotected personnel away from the area of the leak or spill. Wear appropriate personal protective equipment (see Section 8). Avoid contact with eyes, skin, and clothing.

**Emergency Procedures:** In case of chemical emergency, or if unsure how to address an accidental release, consult a professional (see Section 1).

**Methods for Containment:** Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements, or confined areas. Dike the spilled material, where this is possible. Product should not be released to the environment. Contain and recover liquid when possible.

**Methods for Cleanup:** Absorb spill with an inert material (e.g. vermiculite, dry sand, earth, cloth, or fleece) and place in a non-combustible container for reclamation or disposal. Do not flush to sewer. Clean contaminated surface thoroughly. Residues from spills can be diluted with water. Never return spills in original containers for reuse. Clean up in accordance with all applicable regulations.

7. **HANDLING AND STORAGE**

**Handling:** Wear personal protective equipment (see Section 8). Provide sufficient air exchange and/or exhaust in work rooms. Avoid contact with skin, eyes, and clothing. Do not ingest. When using, do not eat, drink, or smoke. Keep away from incompatible materials (see Section 10). Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling. Containers of this material may be hazardous when empty, as they retain product residues. Observe all warnings and precautions listed for this product.

**Storage:** Store in a cool, dry, ventilated area. Store in a segregated and approved area away from heat and incompatible materials (see Section 10). Store in original container. Keep containers tightly closed and upright. Keep away from food, drink, and animal foodstuffs. Keep out of the reach of children. Comply with all national, state, and local codes pertaining to the storage, handling, dispensing, and disposal of this product.

8. **EXPOSURE CONTROLS AND PERSONAL PROTECTION**

**Exposure Limits:**

<table>
<thead>
<tr>
<th>Substance</th>
<th>Water:</th>
<th>Ammonium Bifluoride:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>No information found.</td>
<td>OSHA (PEL): 2.5 mg/m³</td>
</tr>
<tr>
<td></td>
<td></td>
<td>ACGIH (TLV): 2.5 mg/m³</td>
</tr>
</tbody>
</table>
Engineering Controls: Ensure adequate ventilation. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Measures:

Eye/Face Protection: Wear safety glasses with side shields or goggles and a face shield. Maintain approved eye wash station and accessible rinse facilities in work area.

Skin Protection: Wear appropriate chemical resistant clothing (with long sleeves) and appropriate chemical resistant gloves.

Respiratory Protection: An air-purifying, NIOSH-approved respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Use a positive-pressure, air-supplied respirator if there is any potential for an uncontrolled release, if exposure levels are unknown, or if any other circumstances exist where air-purifying respirators may not provide adequate protection.

Specific Requirements for Personal Protective Equipment: Ensure that glove material is compatible with this product. This information is available from glove manufacturers.

9. PHYSICAL AND CHEMICAL PROPERTIES

Unless otherwise indicated, all properties are given at 25 °C and standard pressure.

Appearance: Colorless, clear, transparent liquid.
Odor: Odorless.
Odor Threshold: No information found.
Formula Weight: 57.04 as ammonium bifluoride
pH: No information found.
Melting/Freezing Point: No information found.
Boiling Point/Range: No information found.
Decomposition Temperature: No information found.
Flash Point: Not applicable.
Auto-ignition Temperature: Not applicable.
Flammability: Not flammable.
Flammability/Explosive Limits: Not applicable.
Solubility: Miscible with water.
Vapor Pressure: No information found.
Vapor Density: No information found.
Specific Gravity: 1.026 – 1.072 (Water = 1)
Evaporation Rate: No information found.
Viscosity: No information found.
Partition Coefficient (n-octanol/water): No information found.
10. STABILITY AND REACTIVITY

Reactivity Data: Corrosive. See Section 9.

Chemical Stability: Stable under normal conditions.

Conditions to Avoid: Excessive heat, incompatible materials.

Incompatible Materials: Strong oxidizers, glass, metals, acids, alkalis, amines.

Hazardous Decomposition Products: Nitrogen oxides, hydrogen fluoride.

Possibility of Hazardous Reactions: May react vigorously or violently with the incompatible materials listed above. Excessive thermal conditions may yield hazardous decomposition products listed above.

Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Routes of Exposure: Inhalation, ingestion, skin contact, eye contact.

Acute Effects: Harmful if swallowed, inhaled, or exposed to the skin or eyes. May cause burns. May affect the respiratory tract and mucous membranes.

Chronic Effects: Prolonged or repeated exposure may cause damage to the lungs, mucous membranes, and bones.

Toxicological Data: Water: Not applicable.

Ammonium Bifluoride: LD<sub>50</sub> Oral, Rat: < 300 mg/kg Corrosive to akin and eyes based on animal data.

Symptoms of Exposure: Irritation, burns, conjunctivitis, chest pain, pneumonia, cyanosis, convulsions, muscle spasm, shock, ulceration, headache, abdominal pain, nausea, vomiting, diarrhea, hematuria, blindness.

Carcinogenic Effects: No component of this product is considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

IARC: Ammonium Bifluoride: Group 3 – Not classifiable as to its carcinogenicity to humans

12. ECOLOGICAL INFORMATION

Ecotoxicological Data: Water: Not applicable.

Ammonium Bifluoride: No information found.

Persistence and Degradability: No information found.

Environmental Effects: May be harmful to aquatic organisms. Avoid release to the environment.

13. DISPOSAL INFORMATION

Disposal Instructions: Dispose of this material and its container to an approved waste collection point. Minimize exposure to product waste (see Section 8). Do not dispose unused waste down drains or
into sewers. All wastes must be handled in accordance with local, state, and federal regulations.

Contaminated Packaging: Because containers retain product residue, follow label warnings even after container is emptied. Offer rinsed packaging material to local recycling facilities.

Waste Codes: D002: Waste Corrosive Material (pH ≤ 2 or pH ≥12.5 or corrosive to steel)

### 14. TRANSPORT INFORMATION

**DOT:**

- **UN Number:** UN2817
- **Proper Shipping Name:** Ammonium hydrogendifluoride solution
- **Hazard Class:** 8 (6.1)
- **Packing Group:** III
- **ERG Number:** 154

**Environmental Hazard Regulations:** No component of this product is regulated as a marine pollutant by IMDG.

**Other Transport Precautions:** DOT Reportable Quantity: Ammonium Bifluoride: 100 lb

### 15. REGULATORY INFORMATION

**U.S. Federal Regulations:**

- **OSHA:** This product is considered a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
- **TSCA Inventory:** All components of this product are on the U.S. TSCA Inventory.

**U.S. EPCRA (SARA Title III):**

- **Section 302:** No information found.
- **Sections 311/312:**

<table>
